First Call for Papers - ICDT97

6th International Conference on

Database Theory

Delphi, Greece, January 8-10, 1997

The Sixth International Conference on Database Theory (ICDT '97) will take place in Delphi, Greece, on January 8-10, 1997. ICDT is a biannual international conference on theoretical aspects of databases and a forum for communicating research advances on the principles of database systems. Previous ICDT conferences were held in Rome (1986), Bruges (1988), Paris (1990), Berlin (1992), and Prague (1995).

Topics of interest: ICDT aims to attract papers of high quality, describing original ideas and new results on theoretical aspects of all forms of databases. Major themes to be covered include, but are not limited to:

active database systems	complex objects	complexity and optimization
concurrency control and recovery	data models and design theory	data structures and algorithms for databases
database programming languages	datalog analysis	deductive databases
dependencies and constrains	distributed and heterogeneous databases	fundamentals of security and privacy
incomplete information	multimedia information systems	nonmonotonic reasoning
object-oriented databases	query evaluation and optimization	query languages
transaction management	updates	

Submissions: Authors are invited to submit 8 copies of a full conference paper (which might be an extended abstract where proofs are only sketched) of at most 5000 words (10 typed pages in no less than 11-point font) before June 1, 1996, to one of the program co-chairs:

Program co-chair:

Foto Afrati
Computer Science Division
National Technical University of Athens
Heroon Polytechniou 9,157 73 Zographou
Athens, Greece
Tel: +30-1-772-2498
Fax: +30-1-772-2459
afrati@softlab.ece.ntua.gr

Phokion Kolaitis
Computer and Information Sciences
University of California
Santa Cruz, CA 95064
USA
Tel: +1-408-459-4768
Fax: +1-408-459-4829
kolaitis@cse.ucsc.edu

The cover page of each paper should contain the address, e-mail, fax and phone numbers of the contacting author as well as a short abstract. The results presented in the paper must be unpublished and not submitted for publication elsewhere, including the proceedings of other conferences or workshops. One author of each accepted paper will be expected to present the paper at the conference. As in the past, it is planned that the proceedings of ICDT'97 will be published by Springer-Verlag in the Lecture Notes in Computer Science series, and will be available at the conference.

Program Committee:

F.Afrati (Greece)	M.Cadoli (Italy)	S.Chaudhuri (USA)	S.Cluet (France)
T.Eiter (Austria)	C.Faloutsos (USA)	S.Greco (Italy)	M.Gyssens (Belgium)
P.Kanellakis (USA)	O.H.G.Katona (Hungary)	P.Kolaitis (USA)	G.Kuper (Germany)
T.Milo (Israel)	M.Ozsoyoglu (USA)	J.Pokorny (Czech Republic)	V.Sazonov (Russia)
H-J.Schek (Switzerland)	E.Soisalon-Soininen (Finland)	J.Su (USA)	V.Tannen (USA)
D.Van Gucht (USA)	V.Vianu (USA)	G.Vossen (Germany)	P.Wolper (Belgium)
J.Zlatuska (Czech Republic)			

Organization co-chair: Foto Afrati, Theodora Varvarigou

Important dates:

Deadline for submission:	**May 31, 1996**
Notification of acceptance or rejection:	**September 3, 1996**
Camera-ready papers due:	**October 4, 1996**
Conference:	**January 8-10, 1997**
